## HIV Testing and Outreach Grant

- Funding Amount: \$300,000
- Funding Source: Centers for Disease Control and Prevention
- Purpose: To increase HIV testing in communities of color and in Clark County Detention Center. Additionally, to conduct provider education regarding the provision of HIV testing as part of routine medical exams.

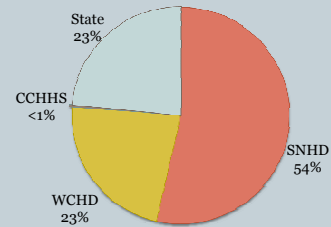

## HIV Testing and Outreach Funding

### Funding Breakdown

- SNHD: \$136,448. Funds will be used for personnel, increase testing to communities of color, Clark County Detention Centers, testing incentives, and educational materials for physicians
- Goshen Community Development Coalition: \$160,000. Funds will be used to hire 2 full-time outreach workers, one targeting the African American community and one Bi-lingual and culturally competent outreach worker targeting the Latino/Hispanic community. Goshen will also design and publish print media and public service announcements to educate the communities on the importance of knowing their HIV status
